PGE Bankruptcy Claim no. 87111, Follow-up of Information Request Form, see attached

Pursuant to a letter dated 10/23/2020, I was asked to send an Information Request Form within 28 days of the date of the letter. I have responded via United States Postal Service Priority Mail Express overnight service on Wednesday November 18, 2020, as proven by tracking number EL862716486US <https://tools.usps.com/go/TrackConfirmAction?tRef=fullpage&tLc=3&text28777=&tLabels=EL862716486US%2C%2C>

The Information Request Form that I sent by USPS priority overnight mail on Wednesday 11/18/2020 should have been received by your office on Thursday November 19th by 12:00pm. However, by reviewing the tracking information, the overnight Priority Mail does not look like the letter arrived or was delivered to your address at 850 3rd Ave., Ste 412, Brooklyn, NY 11232 by the guaranteed delivery date and time of noon on Thursday November 19, 2020.

Since, by the tracking number, it appeared that the United States Postal Service failed to perform their duty as promised, and that my response through the mail may not have been officially received at your office by Thursday November 19, 2020, I called the number on the letter dated 10/23/2020 which is 1-844-339-4217. I called on Friday November 20, 2020 at approx 9:57am Pacific Time. I spoke with a representative that used the name of Lisa. I informed her that I responded to the information request letter in a timely manner and that I would follow up with an email such as I'm doing with this email. I called the 1-844-339-4217 number a second time at approximately 10:24am and spoke with the same phone representative named Lisa and provided her more information, including the tracking number of the response letter that included the attached Information Request Form. I recorded our conversation during both calls and she acknowledged that the call was most likely being recorded on her end as well. There was no objection to me recording the phone conversation and I can provide my archived recordings of both conversations if requested.

This email is to ensure that the Information Request Form that you requested in your letter was not ignored by me and the request was responded to and received by your office as requested in a timely manner.

To also ensure that my response is on the record and received in a timely manner, please download the attached copy of the Information Request Form that was sent via United States Postal Service Priority Mail Express overnight service tracking number EL862716486US. The copy of the attached file includes only the cover letter and the completed information request form that was sent in the mail. Please refer to the original response that was sent via USPS Priority Mail Express overnight service tracking number EL862716486US and the 35 page claim documents that the Information Request Form is referring to as the attachment. A printed hard copy of the 35 page claim form is included in the overnight package. It was impractical to submit this complete package electronically due to the number of pages and that is why I submitted the Information Request Form with the attached 35 page copy of claim by USPS Priority Overnight mail tracking number EL862716486US

If you need additional information, please email me at this email address rickydhorton@gmail.com, or I may be reached on my cell phone number 707-386-9713.

2. Claim-Related Information

The section below relates to information relevant to your filed proof of claim(s). You must provide the following information:

(a) incident date (if applicable);

09/05/2020 as indicated by PG&E SCADA report; Dead body discovered 09/07/2020

(b) a description of the general nature of the claim (e.g., contract, personal injury, cessation of service, etc.);

Death of Rory Nelson Horton by electrocution. See supporting documents herein attached from claim.

(c) a statement of, and supporting documents indicating, the underlying basis for the claim;

PG&E and others are responsible for the deadly condition that resulted in Rory Nelson Horton's death by electrocution. The most basic, fundamental, common sense law is that all energized conductors (wire or cable) shall be covered with an insulation suitable for the voltage involved. The high voltage energized conductor that had no suitable insulation is the primary cause of Rory's death by electrocution. If there had been suitable insulation, as common sense dictates, and as required by all electric codes that recognize safety as a primary objective, and as required by the State of California through the California Public Utility Commission, General Order 95, Section III, Rule 34-F; if there had been suitable insulation, Rory's death would not have occurred. See supporting documents herein attached from claim.
